“This collection takes the reader on an exciting journey across the academy through the lenses of alumni and emeriti professors. Through their diverse reflections, a deeper understanding of the impact of college is revealed along with how time spent in the academy, as a student or professor, shapes our educational experience and contributes to the personal transformation of who we become in the future.”

— Gloria J. Gibson, PhD, Executive Vice President & Provost of the University of Northern Iowa and an alumna of Southern Illinois University Edwardsville (BA and MA in Music Education)
