**Beware of false prophets in higher education**

The idea of a false prophet has been around among monotheistic religions (Judaism, Christianity and Islam) since their inception. The concept of someone predicting things that won’t come to pass, which the belief is, serves as a warning against conventional wisdom, but those who are not allowed to always trust their gut and their ability to think critically about what they hear. We are, in essence, breaking a bad habit and giving up on our common experiences and the wisdom of others.

Dr. Aldemero Romero Jr.

*Letters from Academia*

It is not a question of whether someone is a false prophet or not. It is a question of how much of their work is driven by their own interests. But it is not the case that the conditions and data that have proved successful in the past will continue to work as well.
